Notes to Statement of Financial Condition

Note 1. Nature of Business and Significant Accounting Policies

Victory Park Securities, LLC (the Company) is a Delaware limited liability company with the purpose of conducting business as a broker-dealer. The Company's primary business is investment banking services including providing financial advisory services to institutional investors, corporations, and individuals. These financial advisory services include capital sourcing, mergers and acquisitions, and strategic business advisory services. The Company is registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA).

The Company operates under the provisions of Paragraph (k)(2)(i) of Rule 15c3-3 of the SEC and, accordingly, is exempt from the remaining provisions of that rule. Essentially, the requirements of Paragraph (k)(2)(i) provide that the Company carries no margin accounts, promptly transmits all customer funds and delivers all securities received in connection with its activities as a broker or dealer, does not otherwise hold funds or securities for or owe money or securities to customers, and effectuates all financial transactions between the Company and its customers through one or more bank accounts, each designated as Special Account for the Exclusive Benefit of Customers. Because the Company effects no financial transactions with customers as defined in Rule 15c3-3(a)(1), the Company does not maintain a Special Account.

The following is a summary of the Company's significant accounting policies:

Accounting estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Revenue recognition: Investment banking revenue includes both success fees and advisory fees earned from providing financial advisory services. Success fee revenue is recognized at the time the transaction is completed and the income is reasonably determinable, as defined under the terms of each engagement. Advisory fees are recognized as the services are performed. Uncollectible amounts are written off at the time the individual receivable is determined to be uncollectible. Allowances for doubtful accounts are based primarily on the specific facts and circumstances of each receivable. As of December 31, 2011, no allowance has been recorded.

Equipment: Equipment is recorded at cost and depreciated on a straight-line basis over the estimated useful lives of the assets.

Income taxes: The Company is taxed as a partnership under the provisions of the Internal Revenue Code and, accordingly, is not subject to federal income taxes. Instead, members are liable for federal and state income taxes on their respective share of the taxable income of the Company. Accordingly, no provision or benefit for federal income taxes has been made as the Company's taxable income or loss is included in the tax return of the Members.

Management has determined that there are no material uncertain income tax positions through December 31, 2011. The Company is generally not subject to examination by U.S. federal and state tax authorities for tax years before 2010.

Note 2. Net Capital Requirements

The Company is a broker-dealer subject to the SEC Uniform Net Capital Rule (Rule 15c3-1), which requires the Company to maintain minimum "net capital" equal to the greater of \$5,000 or 6-2/3 percent of "aggregate indebtedness," as defined, and the ratio of aggregate indebtedness to net capital shall not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn if the resulting net capital ratio would exceed 10 to 1. Net capital changes from day to day, but at December 31, 2011, the Company had net capital of \$178,731, which was \$161,164 above its required net capital of \$17,566. At December 31, 2011, the Company's net capital ratio was 1.47 to 1.

Note 3. Customer Concentration and Related-Party Transactions

For the year ended December 31, 2011, the Company had six major customers. A customer is considered major when the customer represents more than 10 percent of total revenue for the year ended December 31, 2011.

The Company has an expense funding agreement with Victory Park Capital Advisors, LLC (VP Capital), whereby VP Capital agrees to pay all overhead expenses of the Company. Expenses allocated to the Company are reflected as an expense sharing charge on the accompanying statement of operations and include technology, marketing and communication, support services and occupancy. Reimbursement for services occurs on a monthly basis.

Note 4. Concentration of Credit Risk

The Company's financial instruments that are exposed to concentrations of credit risk include cash. The Company maintains its cash account with a financial institution. The total cash balance of the Company is insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 per depositor, per bank. The Company monitors such credit risk and has not experienced any losses related to such risks.

Note 5. Members' Capital and Equity Compensation

Members' capital consists of two classes of units that represent membership interests, Class A and B. The Class B units were granted in 2011 with an average vesting period of 2 years and a grant date fair value of \$43,500. The remaining average vesting period for unvested Class B units is one year. The fair value estimation was derived by multiplying a key performance metric of the Company by the relevant valuation multiple observed for comparable transactions. The Company applied an option pricing model with volatility of 47% and a time horizon of 5 years.

Notes to Statement of Financial Condition

Note 5. Members' Capital and Equity Compensation (Continued)

The Class B units are intended to constitute "profit interests" within the meaning of Internal Revenue Service Revenue Procedures 93-27 and 2001-43. Upon vesting, the Class B units entitle the holders to pro rata participation in future profits of the Company. The following table presents Class B unit activity during the year:

	Non-Vested Class B Units
Outstanding, December 31, 2010	-
Granted	152
Vested	(112)
Forfeited	-
Outstanding, December 31, 2011	40

As of December 31, 2011, there are 168 outstanding Class A units and 112 outstanding and vested Class B units. As of December 31, 2011, Class A members' total capital balance is \$275,295 and Class B members' total capital balance is zero.

Class A members have the right and full authority to manage, control, administer and operate the business and affairs of the Company. Class B members have the right to vote on matters as specifically noted in the operating agreement.

Note 6. Indemnifications

In the normal course of business, the Company enters into contracts that contain a variety of representations and warranties that provide indemnifications under certain circumstances. The Company's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Company that have not yet occurred. The Company expects the risk of loss to be remote.
